BSMM.8730: Data Acquisition and Management
Group Project: DAM Application – D.3.1. Project Midterm Status Report

Overview

Please find below details about the project deliverable.

Deliverable D.3.1. –Midterm Project Status Report

General

After going through the multi-stage approval process that ensured **original**, **high-quality**, and **non-overlapping project ideas**, and after presenting their respective **Full Proposal**, every group should have been working on the project implementation. The current deliverable (D.3.1. Midterm Project Status Report), is expected to demonstrate credible and measurable progress in project implementation.

Note: A prototype of the final implementation should be available.

Deliverable Details

Each group must submit a 4-page long document with a status report on the project progress (***D.3.1. Midterm Project Status Report***) that includes the following sections:

1. **Project Progress Breakdown** **(30%)**
   a. **Task Breakdown Structure (TBS)**: (15%)
      i. Students must provide a detailed breakdown of the project into smaller, manageable tasks or milestones.
      ii. Each task should be clearly labeled as Completed or Remaining.
      iii. Dependencies between tasks (if any) should be indicated.
   b. **Evaluation Focus**: (15%)
      i. Completeness and clarity of breakdown. o Logical sequencing of tasks.
      ii. Evidence that significant progress has been made since project initiation.

Example[1]:

Task ID	Task Description	Status	Remarks / Notes
1	*Database schema design*	*Completed*	*Final ER diagram and schema implemented*
2	*Data insertion and testing*	*Completed*	*Sample dataset populated and verified*
3	*Query optimization and indexing*	*In Progress*	*Indexing strategies being tested*
4	*Report generation & visualization*	*Pending*	*To be implemented in the next phase*

[1] Replace the items in italics with actual project tasks.

2. **GitHub Repository and Version Control Evidence** **(30%)**
   a. **GitHub Commitment**: (15%)
      i. The team must use GitHub (or an equivalent version control system) to track project development.
      ii. Each member's contribution should be visible through commits, pull requests, or code merges.
   b. **Evaluation Focus**: (15%)
      i. Evidence of consistent, distributed contribution among team members.
      ii. Meaningful commit messages (reflecting actual work, not placeholder text).
      iii. Repository structure and organization (e.g., folders for SQL scripts, documentation, reports, etc.).

   Evidence Required:
   - Repository link showing commit history.
   - Short summary of each member's contribution.
3. Demonstration of Completed Work (40%)
   a. **Evidence of Implementation**: (20%)
      i. Each team should provide live walkthrough of completed tasks.
      ii. Each item demonstrated must align with the "Completed Tasks" section.
   b. **Evaluation Focus**: (20%)
      i. Alignment between claimed progress and actual implementation shown.
      ii. Quality and functionality of the demonstrated components (e.g., working queries, database schema, stored procedures, interfaces, etc.).
      iii. Professional presentation of evidence (clear labeling and organization).

An **individual** report, one from each team member, must also be submitted, forming a separate deliverable:

- **D.3.2. Individual Contribution to Project Progress**:
  Each and every team member must provide:
  1. An MS Word or .pdf file with the analysis and report with their individual contribution to the project (2 pages minimum).

Important Notes:

- The project midterm status report must be **4 pages maximum** (excluding bibliography and references).
- **Bullet points are not accepted**; the report must be written in paragraph form.
- Your report must clearly **highlight evidence of novelty or new insights**.

Project Deadlines

The following table presents the project deadlines:

Date	Task
Sunday, September 27th	*D.1. Project pre-proposal document*
TBA	D.2. Project Certificates

© Dr. Andreas Maniatis – UWindsor - SCS

Sunday, November 8th	**D.3.1. Midterm Project Status Report** **D.3.2. Individual Contribution on Project Progress**
	D.4. Final Project Demo (application, code, documentation, etc.)
Friday, October 23rd	D.4.1. User Requirements Gathering document
Friday, October 30th	D.4.2. Analysis and Design document
Tuesday, December 1st	D.4.3. Application (source code in repository, executables, dataset(s), DB Schema, etc.)
Tuesday, December 1st	D.4.4. Deployment document
Tuesday, December 1st	D.4.5. User Guide
Tuesday, December 1st	D.5. Final Project Report
Wednesday, December 9th	D.6. In-class, in-person Project Presentation

Project Deliverable Format

Prepare your Midterm Project Status Report, including the following components:

1. A .pdf file with the Midterm Project Status Report.
   Formatting Requirements:
   a. The report must be reasonably detailed:
      i. 4 pages for the report.
      ii. Use the 2nd template found in Brightspace to report the team members' effort, assigned and completed tasks.
   b. Use the following templates:
      i. The ones found in Brightspace, and/or
      ii. Project status report: Lucidchart.
2. A .pdf file of *D.3.2. Individual Contribution to Project Progress*, that includes:
   a. 2 pages for the individual report.
   Use the following templates:
      i. The ones found in Brightspace, and/or
      ii. Project status report: Lucidchart
   b. A link to the code repository/PM platform you are using with the detailed work breakdown of the respective team member (Tasks assigned/completed/in progress, notes, etc.).

   A different dropbox with details about the individual submission of *D.3.2. Individual Contribution to Project Progress* is available.

Deliverable Submission

- This is a group submission.
- Deliverables must be submitted electronically to the designated Brightspace assignment folder.
- Only one submission is required by one group member.
- You will receive a grade of zero for this deliverable if you fail to submit via the Brightspace dropbox created for this purpose.

Grading Rubric

The following table presents the grading Rubric for the current deliverable[2]:

Item	Grade (%)
D.3.1. Midterm Project Status Report:	4%[3]
1. Project Progress Breakdown (30%):	1.20
1. Task Breakdown Structure (TBS) (15%)	0.60
2. Evaluation Focus (15%)	0.60
2. GitHub Repository and Version Control Evidence (30%):	1.20
1. GitHub Commitment (15%)	0.60
2. Evaluation Focus (15%)	0.60
3. Demonstration of Completed Work (40%):	1.60
1. Evidence of Implementation (20%).	0.80
2. Evaluation Focus (20%)	0.80
D.3.2. Individual Contribution to Project Progress	1.00
Total	**5%**

[2] Please note that incomplete submissions will not be graded. Also, in preparing your submission files you must abide by University of Windsor policies governing plagiarism and academic integrity. Submissions may be subjected to review by automated tools to verify their originality.

[3] This percentage refers to the group project only.
